Carl Zeiss Lithos, Carl Zeiss Strasse 22, 73447 Oberkochen, Germany

Executive Editor of the Journal of GCPD e.V., Feng WANG  
Optisches Institut, Technische Universität Berlin, Str. des 17. Juni 135, 10623 Berlin, Germany

### ABSTRACT

The Abstract will appear as the first paragraph of your text. Set it apart from the rest of your paper by giving it the heading **ABSTRACT**, leave three blank lines to the last address line and a blank line to the abstract text, type the abstract text single spaced, and leave one blank line before the **Keywords** section.

**Keywords:** List up to four key words in a separate section below the abstract and followed by two blank lines before the **INTRODUCTION** section. List the terms as follows: GCPD e.V., Annual journal, International standard, Annual meeting.

### 1. INTRODUCTION

The Gesellschaft Chinesischer Physiker in Deutschland (GCPD e.V.) was founded in 1990 and published one scientific journal every year. In order to reach the international standard, the Board of the GCPD e.V. has decided to announce the guidelines to prepare your camera-ready manuscript for the journal of the GCPD e.V..

### 2. GENERAL TEXT LAYOUT

Print the manuscript on good quality white bond paper **A4**. List the title, author names, affiliations, and addresses at the top of your first page. All text should be **single spaced** with full justification in Times Roman or a similar typespace. Use **10 point type** for the text; **12 point type** may be used for the title. Leave a blank line between the title and author names.

The text block should measure 16 cm wide by 23.7 cm high. The right and left margins for each page should measure 2.5 cm each. The upper and down margins should measure 3.5 cm and 2.5 cm, respectively.

Please number your pages to insure that they will be printed in the proper order. A slightly penciled number in the corner is fine or use non-photo blue.

Carefully proofread your material before sending it to the Editors or Board of GCPD e.V.

### 3. HEADINGS

#### First Subheading

Second Subheading. As with journal articles, headings and subheadings should be sparingly to direct the reader. If you feel it will improve the readability of your paper, headings and subheadings may be numbered. The heading

---

\* The GCPD e. V. is the short form for the **Gesellschaft Chinesischer Physiker in Deutschland e.V.** and means The Society of Chinese Physicists in Germany, registered. The journal of GCPD e. V has the registered ISSN 1431 - 391X from 1992 to 1998 and the new ISSN 1438-5473 from 1999 on.

is flush central, boldface, and both preceded and followed by an extra line of space. The first subheading is flush left, boldface if possible, but now followed by an extra line of space.

First Subheading The second subheading is flush left, underlined, and followed by a period with the text of the paragraph running next to the heading.

#### 4. PARAGRAPH

The first paragraph under a heading should not be indented. Indent subsequent paragraphs 0.6 cm. Do not skip a line between paragraphs.

#### 5. EQUATIONS

Center equations and set them apart with a blank line above and below. If you number the equations, place the numbers in parentheses and flush right. An example is

$$R = E_2 / E_1 \quad (1)$$

When referring to equations within text, abbreviate as Eq. or Eqs. if plural, followed by the number in parentheses, e.g. Eq. (1) or Eqs. (1) and (5).

#### 6. TABLES

Number tables consecutively using Arabic numerals. Provide a brief title centered above the table. Tables 1 in the text shows an example.

Table 1. Annual meetings of the GCPD e. V.

Annual Meeting	Date	Place	No. of Participants	No. of Talks	Financial Support [DM]
1	11.-13.5.1990	Bonn	34	7	3000
2	12.-14.6.1991	Bonn	27	12	3000
3	19.-21.6.1992	Bonn	24	14	3000
4	3.-5.12.1993	Marburg	22	16	3000
5	28.-30.7.1994	Worms	25	14	3000
6	22.-24.9.1995	Kassel	24	17	3000
7	6.-8.9.1996	Darmstadt	20	15	3000
8	19.-21.9.1997	Berlin	36	28	4000
9	6.-8.11.1998	Hamburg	48	38	6000
10	10-12. 9. 1999	Berlin	54	35	10000
11	22-24.9.2000	Bielefeld	25	21	3000

## 7. FIGURES

Referring to Fig. 1 in the text, number figures consecutively using Arabic numerals and provide a brief caption centered under the figure.

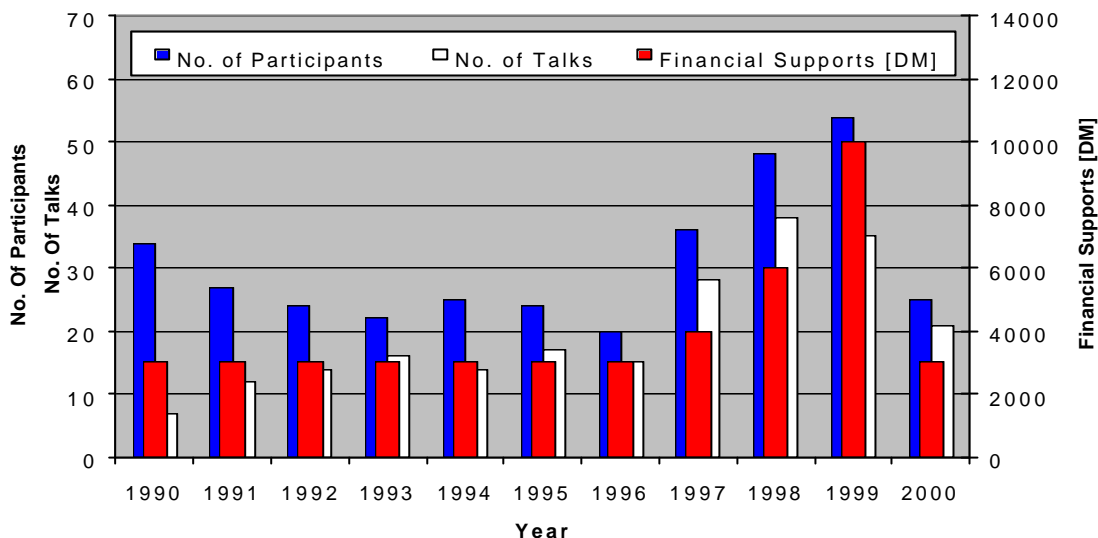

Fig. 1. Annual meetings of the GCPD e.V.

## ACKNOWLEDGMENT

The authors would like to thank all the people who founded and helped the Gesellschaft Chinesischer Physiker in Deutschland.

## References

Literature references should appear in the text as consecutive numbers. They should be listed in full at the end of the article. The examples for quotation *from journals*<sup>1</sup> and *from Books*<sup>2</sup> are given as follows:

1. Z. Zhou, Y. Ruan, "Optimization of information pit shape and read-out system in read-only and write-once optical storage systems," *Appl. Opt.* **27**, 718-731 (1988).
2. J. W. Goodman, *Introduction to Fourier optics*, McGraw-Hill Publishing Comp, New York, (1975), pp. 141-184.

## Account Number of the GCPD e. V.

Name: Gesellschaft Chinesischer Physiker in B. R. Deutschland e. V.  
 Account No: 805141542  
 Bank: Kreissparkasse Ostalb  
 BLZ: 61450050
